

# WHEEL AND BRAKE REPAIR

Safran Landing Systems Wheel & Brake Services works to identify innovative custom solutions designed to address specific customer needs and reduce the cost of ownership.

## SERVICES CAPABILITIES

Safran Landing Systems Wheel & Brake Services has a broad capability to perform repair and overhaul services on a variety of OEM wheel and brake systems.

Safran Landing Systems Wheel & Brake Services is certified to service OEM wheel and/or brake systems from Safran Landing Systems, Honeywell, UTAS (Goodrich), Meggitt (ABSC/Dunlop).

## NETWORK

Our repair facilities are located in Bethlehem, Pennsylvania, Milwaukee, Wisconsin, Miami, Florida and Las Vegas, Nevada. These locations provide customers greater flexibility and shorter turnaround times by greatly reducing transportation time.

## OUR PROMISE

At Safran Landing Systems Wheel & Brake Services, we provide our customers with the service of a local shop and the reputation and reliability of a world leader in aircraft wheels and brake systems. Our ever evolving commitment to efficiency and service allows us to provide our customers with a superior wheel and brake MRO service at a competitive price.
