THESE GENERAL PURCHASING CONDITIONS DEFINE THE TERMS AND CONDITIONS FOR PLACING AND PERFORMING ORDERS FOR AERONAUTICAL PRODUCTS AND/OR SERVICES INTENDED FOR SAFRAN GROUP COMPANIES IN THE UNITED KINGDOM.

1 - DEFINITIONS

Acceptance Report: A document issued by the Purchaser, signed by both Parties, confirming the acceptance of the Supply.

Declaration of Conformity: A document given by the Supplier warranting that the Supply conforms with the Specifications, including all applicable standards and other regulations in force.

Documentation: Any and all document(s) issued or provided by the Supplier necessary for the achievement of manufacture (including controls and trials), installation, use, operation, maintenance, repair and overhaul of the Supply and/or Specialized Equipment by the Purchaser, which may include (but are not limited to) handbook(s), plan(s), description(s), model(s), or instruction(s).

Final Client: The Final Client may be (i) the client of the Purchaser, (ii) the ultimate purchaser of engines or equipment and/or of services incorporating the Supply, and/or (iii) the company maintaining the engine or equipment.

Entrusted (or Bailed) Property: Property of any kind or nature entrusted (or bailed) by the Purchaser to the Supplier and placed under the control and responsibility of the Supplier, and specifically including any property procured, or manufactured by the Supplier, on behalf of the Purchaser, being used to perform the Order.

General Purchasing Conditions: The conditions set forth in this document.

Official Authorities: Any national or international organization with the authority (including by delegation of a public authority) to monitor the performance of the Supply ordered, including but not limited to organizations that certify or approve aeronautical products or services, or organizations that audit businesses.

Order: That certain document, regardless of the form, issued by the Purchaser and sent to the Supplier, concerning the purchase or the lease of a Supply and including, among other things, the designation of the Supply ordered, deadlines, the price, and a reference to these General Purchasing Conditions.

Party(ies): Singularity, the Purchaser or the Supplier, and collectively both the Purchaser and the Supplier.

Purchaser: The Safran Group Company issuing the Order.

Results: Refers to all elements of any nature whatsoever, regardless of their medium or form, including processes, data, Software, moulds, tooling, equipment, software, sets of documents, plans, technical sheets, data, drawings, models, prototypes, sets of trials, or any other element, regardless of whether or not it gives rise to intellectual and/or industrial property rights, and which is produced or developed for the Purchaser on the basis of the plans and/or diagrams and/or any other specifications of the Purchaser in the course of the performance of the Order. For the avoidance of doubt, any and all Results are part of the Supply.

Specialized Equipment: Any and all equipment financed or supplied by the Purchaser or the Supplier for the performance of the Order, or any and all equipment that is the object of the Order. Specialized Equipment includes (but is not limited to) transport frames, manufacturing
and assembly circuits, special tools and in particular special cutting tools and special control gauges, forge and foundry equipment, and coding software tools.

**Specifications**: Any document setting out the requirements that the Supplier or the Supply shall comply with, the Purchaser’s needs and the performance conditions of the Supply, including the statement of work description, applicable standards and quality requirements.

**Supplier**: The natural person or legal entity to whom the Order is sent.

**Supply**: Aeronautical products (“Products”) and/or aeronautical services (“Services”), which are the subject of the Order.

### 2 - CONTRACTUAL DOCUMENTS

2.1 These General Purchasing Conditions set forth the contractual relationship between the Supplier and the Purchaser within the framework of the Orders. These General Purchasing Conditions may be completed, clarified, or amended by special terms and conditions within the framework of a document negotiated and signed by the Service Provider and the Purchaser. These General Purchasing Conditions may also be supplemented by the issuance of additional Specifications sent, or agreed to in writing, by the Purchaser.

The relationship between the Purchaser and the Supplier related to the Supply is governed by the following contractual documents (collectively, the “Contractual Documents”), listed in order of decreasing priority:

- The Order;
- If applicable, the contract or the special terms and conditions of purchase;
- The General Purchasing Conditions;
- The Specifications.

It is however understood that the Order must be performed in accordance with the provisions of the agreements concluded between the Parties, unless otherwise agreed to in writing by mutual agreement.

In the event of contradiction between any two documents listed above, the document listed higher shall prevail.

2.2 Should one of the contractual documents state that any or all of the Supply relates to public procurement contracts for a governmental or quasi-governmental entity, the Supplier, as a subcontractor to such contract, shall comply with the applicable provisions of such public contracts and shall pass any relevant obligations on any of its subcontractor(s).

In the event that any or all of the Supply relates to a foreign public organization’s procurement contracts, the Supplier agrees to abide by the applicable rules and regulations.

2.3 The Order shall be deemed to have been accepted by the Supplier upon the earlier of:

- Purchaser’s Receipt of the Order signed by the Supplier, without modifications, within fifteen (15) calendar days starting from the date on which the Order was issued;
- Commencement of performance of the Order by the Supplier, without the Supplier’s written reservation with respect to the contractual documents within fifteen (15) calendar days from the date on which the Order was issued.

Upon acceptance of the Order, the Supplier accepts the Contractual Documents without any reservation. The Contractual Documents constitute the entire agreement between the Parties.
Any other conditions that would complete or modify the Contractual Documents shall not be enforceable to the Parties without their prior express agreement in writing.

3 - MODIFICATIONS

3.1 The Purchaser, at any time and in its sole and absolute discretion, may modify the Specifications.

3.2 As soon as possible after receiving a modification, the Supplier shall provide the Purchaser a detailed assessment of the modification proposal and its impact on prices, deadlines, quality, the Specialized Equipment, the retrofit kits of Supply already delivered, and a detailed analysis with respect to stocks and work-in-process. The Purchaser shall issue an amended Order, which shall set forth the conditions for the delivery of future Supply.

3.3 If any modification request is necessary to (i) ensure the continuing airworthiness of the Supply, (ii) maintain the Purchaser’s warranties, or (iii) prevent the Official Authorities from refusing, withdrawing or restricting their approval of the Supply (or any related good or service), the Supplier shall immediately take all measures to retrofit any Supply delivered, and make all modifications necessary to any Supply yet to be delivered. Additional costs relating to such modifications shall be agreed to by both of the Parties; provided that if such modification is necessary to ensure the Supply meets the Specifications, then the Supplier shall bear any and all such costs.

4 - ORDERING PROCEDURE

4.1 The Supplier undertakes to perform the Orders issued by each Purchaser in accordance with the provisions of the Contractual Documents, industry best practices and methods, state of the art rules, and any and all regulations and standards in force. The Supplier has an obligation to produce the Supply in strict accordance with the Contractual Documents.

4.2. The Supplier is solely and fully responsible for determining the resources required to perform the Order. Specifically, the Supplier shall obtain all necessary rights, elements and information to perform the Order in accordance with the Contractual Documents. Upon acceptance of the Order, the Supplier is deemed to have obtained all necessary elements and information to carry out the Order, or will have done so prior to providing the Supply. Moreover, the Supplier shall promptly inform the Purchaser of any existing difficulties or anomalies that may also occur during the implementation of the Order.

4.3 The Supplier has an obligation to inform and advise the Purchaser. In addition, the Supplier shall inform the Purchaser without delay and in writing of any situation concerning the latter that may jeopardise the satisfactory performance of the Order, in particular it shall inform the Purchaser if its business becomes the subject of bankruptcy proceedings (insolvency, receivership or liquidation subject to court supervision), or any equivalent situation, such as the winding-up or total or partial transfer of its business activity, or any modification of its organizational structure that might have an impact on the satisfactory performance of the Order.

If some third-party authorization is required, regardless of the nature of such authorization, in order to obtain an Acceptance Report with respect to an Order, the Supplier, before the completion of the Order, shall obtain all such necessary authorizations. For the avoidance of doubt, such authorizations should be obtained prior to the shipment of the Supply so that the Purchaser need not obtain such authorizations.

4.4. The Supplier’s quality system shall meet the quality requirements applicable to the Purchaser’s suppliers, as set forth in the procedures or any other documents released to the Supplier by the Purchaser.
Upon reasonable prior notice, throughout the duration of the Supply’s performance, the Supplier undertakes to (i) grant the Purchaser, the representatives of any relevant Official Authorities, and the representatives of any Final Client free access, during business hours, to the Supplier’s premises, and to (ii) provide any document relating to the Supply, the Works, and/or the Order. The Supplier shall obtain these same rights from any of its subcontractors.

The Supplier warrants that any products it has designed, or that it has manufactured under a licence from a third party, and all of the services which the Supplier provides, comply with all codes, regulations, procedures, and other applicable rules or laws issued by the applicable, competent authorities.

The Supplier shall establish a system of document management and secure archiving to ensure the traceability and sustainability of the Supply. The Supplier agrees to make any and all modifications necessary to ensure that such a system complies with the Purchaser’s, or the Final Client’s, requirements.

4.5. The Supplier and the Purchaser may exchange electronic data necessary to perform the Order. The applicable conditions to these exchanges are provided in Appendix 2.

4.6. The Supplier shall issue a report, on at least a monthly basis, that keeps the Purchaser informed of the actual progress of the manufacturing of products and/or of the carrying out of services. That report shall include a forecast of deliveries over a minimum period of six (6) months.

4.7. When the Supply is related to the purchase of Specialized Equipment, the Supplier shall, at no additional charge, train the Purchaser’s operators, machine programmers, maintenance specialists, and other applicable personnel, so that the Purchaser’s personnel can autonomously and optimally use and ensure the maintenance of this Specialized Equipment. This training shall be completed prior to the issuance of a final Acceptance Report of the Supply.

5 - DELIVERY

5.1 Any delivery of Supply shall be accompanied by the Declaration of conformity and by a delivery slip affixed to the outer packaging, with a copy of the said delivery slip inside the package, containing the following information:

- Identification number of the delivery slip;
- Order number and item number of the Order;
- The Supply’s reference number;
- Description of the Supply as specified in the Order;
- Declaration of Conformity (if applicable);
- Quantity delivered and, if applicable, the serial number and the individual number of products/parts;
- The number of packages (if necessary);
- The number of units being purchased; and
- If necessary, a customs document and a transport document in compliance with applicable regulations, as well as any other documents required for customs clearance operations within the framework of imports.

5.2 The Supplier agrees that the delivery and availability of the Documentation and the documents required by applicable regulations and standards is an integral part of the Supply.

5.3 The Purchaser reserves the right to refuse and send back, or make available for pickup by the Supplier, at the Supplier’s sole cost and risk, any goods that do not meet the specifications outlined in the Contractual Documents, or include a modification to such specifications that are
unacceptable to the Purchaser in its sole and absolute discretion. The Purchaser reserves the right to refuse all or part of a batch in which certain goods do not conform to the Contractual Documents.

5.4 Unless otherwise provided in the Order, the delivery of the Supply shall be DAP “address of the Purchaser” (Incoterms 2010 - International Chamber of Commerce). Notwithstanding the foregoing, the transfer of the risks of the Supply takes place on the signature date of the Acceptance Report by the Supplier and the Purchaser.

5.5 Packaging shall be carried out in compliance with the Contractual Documents, and applicable regulations and standards in force. Such packaging shall include all necessary instructions and provide sufficient protection to ensure that the Supply undergoes no deterioration during transport and/or storage. Any damaged Supply upon delivery shall be returned to the Supplier, with any and all transport, repair, assembly, and trial costs, to be solely borne by the Supplier.

5.6 If the Supply is related to Specialized Equipment, the delivery shall be subject to an agreement with the Purchaser at least seventy-two (72) business hours before the Specialized Equipment is dispatched. Furthermore, the Supplier is responsible for unloading, handling operations, installation, assembly and making the Specialized Equipment operational at the Purchaser’s site, in accordance with the provisions stated in the Contractual Documents. In the event that the Supplier asks the Purchaser to provide tooling or other Purchaser goods and/or services which were not specified in the Order, the Purchaser reserves the right to invoice the Supplier, given that the Supplier shall use the Purchaser’s tooling, goods, and/or other services at the Supplier’s own risk and under the Supplier’s sole responsibility.

5.7 The Supplier shall take all necessary measures to prevent stock shortages. Accordingly, the Supplier shall make available safety stocks or other reasonable, and similar, alternatives. The Purchaser reserves the right to carry out periodic audits in order to verify the existence and efficiency of these measures.

6 - DEADLINES

6.1 Time is of the essence with respect to the Contractual Documents, and delivery of the Supply. The deadlines agreed between the Parties are mandatory and respecting these deadlines constitutes an essential condition without which the Purchaser would not have issued the Order.

6.2 The Supplier shall promptly inform the Purchaser of any foreseeable delay compared to the contractual deadlines in writing. Such writing must also include any and all measures taken to remedy such delay. Except for force majeure events (as described below), the Supplier shall bear any additional expenses resulting from this delay.

6.3 In the event of failure to meet contractual deadlines, the Purchaser shall, in its sole and absolute discretion:

- apply, unless otherwise agreed by the Parties in a signed document, automatically, and without prior notice, liquidated damages equivalent to 0.5% of the pre-tax price of the relevant Order per calendar day delay, these liquidated damages being capped at 15% of the pre-tax amount of the Order and/or
- terminate the Order under the terms and conditions referred to in Article 27, "Termination" below, without any indemnity being due to the Supplier.

These remedies shall be without prejudice to any remedy available to the Buyer under the Contractual Documents and the parties agree that the sum calculated above as liquidated damages represents a genuine pre-estimate of the Buyer's loss caused of such delay. The Purchaser shall notify the Supplier of the amount of liquidated damages in writing (the
“Liquidated Damages Notice”). The Supplier agrees that the Purchaser may deduct, the liquidated damages from the amount due to the Supplier with respect to the late Order; provided that the Supplier has not disputed, in writing, the facts of the grievance or has not already paid to the Purchaser the amount claimed within ten (10) calendar days of receiving the Liquidated Damages Notice.

6.4 In the event of early delivery or delivery of excess quantities of the Supply, the Purchaser reserves the right either (i) to accept the early or excess Supply, (ii) to make the early or excess Supply available to the Supplier at the Supplier’s own risk, or (iii) to return the early or excess Supply at the Supplier’s own cost and risk.

7 - ACCEPTANCE

7.1 The Contractual Documents may provide an acceptance procedure for the Supply. The Purchaser reserves the right to refuse the Supply when the related Documentation is incomplete or is non-compliant with the Contractual Documents.

Acceptance is pronounced after: (i) the Supplier sends the Declaration of Conformity, (ii) the Purchaser has no remaining reservations with respect to the Supply (or its operation), and (iii) the Purchaser or the Final Client has verified the Supply. Such verification shall occur during the specified period in the Contractual Documents. Upon acceptance being complete, the Purchaser shall issue the Acceptance Report, and on that date the warranty period shall begin.

7.2 The Supplier agrees that the Purchaser may not tacitly accept the Supply. Unless otherwise agreed between the Parties, the acceptance procedure or the verification of the conformity of the Supply (as described in article 7.1) shall be made within thirty (30) days of delivery.

The issuing of an Acceptance Report shall in no event be interpreted as a waiver of any sort, or affect the extent of the warranty or other commitments made by the Supplier hereunder, nor shall such events be interpreted to affect any available warranty.

7.3 If the Final Client participates, carries out, or validates acceptance of the Supply, then the Acceptance Report becomes valid upon the Final Client’s written agreement thereto.

7.4 If certain Supply does not conform to the Contractual Documents, the Purchaser shall inform the Supplier to allow the Supplier to inspect the non-conformity as quickly as possible. If the Supplier does not inspect or dispute the non-conforming Supply within fifteen (15) calendar days, the Purchaser reserves the right, in its sole and absolute discretion:

- To accept the non-conforming Supply, in exchange for a mutually agreeable price discount and the Supplier shall bear all costs of the assessment and calculation of any such discount;
- To accept it after corrective work at the Supplier’s sole expense, carried out either by the Supplier itself or by the Purchaser (or by a third party appointed by the Purchaser);
- To refuse it, making it available to the Supplier for removal at the Supplier’s sole expense and risk within fifteen (15) calendar days of the date of notification of non-conformity by the Purchaser; or
- To refuse it and return it to the Supplier, at the Supplier’s sole expense and risk.

The non-conforming Supply refused by the Purchaser shall be deemed undelivered and shall give rise to the application of the liquidated damages provided in article 6 “Deadlines” above without prejudice to the Purchaser’s right to seek damages for the harm suffered owing to the non-compliance at issue, and/or cancel the Order.
8 - TRANSFER OF OWNERSHIP

The transfer of ownership to the Purchaser takes place, notwithstanding any reservation of title clause contained in the Supplier’s documents:

• upon delivery at the Purchaser’s site with respect to the Products or parts elements of the Services,
• or, at the signature of the Acceptance report if acceptance is specified in the contractual documents, provided that
• with regard to the Results, as and when they are produced.

9 - ENTRUSTED (OR BAILED) PROPERTY

Entrusted (or Bailed) Property is to be reserved exclusively to the performance of the Purchaser’s Orders and is deemed to be lent to the Supplier.

Entrusted (or Bailed) Property remains the property of the Purchaser, of the person who entrusted it to the Purchaser, or of the Final Client. The Entrusted (or Bailed) Property shall be identified as such and stored in such a way as to avoid any confusion with the property of the Supplier or any other third party. Any modification or destruction of the Entrusted (or Bailed) Property shall be subject to prior written agreement by the Purchaser.

The Supplier undertakes to send the Purchaser, in December of each year, an inventory of the Entrusted (or Bailed) Property which has been placed at the Supplier’s disposal or financed by the Purchaser. When the inventory is not transmitted to the Purchaser as stated above, the Purchaser may carry out the inventory at the Supplier’s sole expense.

Upon the Purchaser’s request, the Supplier shall, as soon as possible, return any portion of the Entrusted (or Bailed) Property in working condition with any and all certificates and authorizations relating thereto being up-to-date. At the time that any portion of the Entrusted (or Bailed) Property is returned to the Purchaser, the Purchaser and the Supplier shall update the inventory of which Party possesses the Entrusted (or Bailed) Property.

The Supplier shall monitor the Entrusted (or Bailed) Property and take all adequate measures for protection against theft or damage of any sort. In the event of any direct or indirect interference by anyone to the Entrusted (or Bailed) Property, the Supplier shall promptly inform in writing the Purchaser, take all the necessary measures to defend the rights of the owner of the Entrusted (or Bailed) Property and ensure that the interference ceases. Should the Supplier have a lien granted by law on the Entrusted (or Bailed) Property, then upon the acceptance of the Order, the Supplier shall expressly and immediately surrender such lien of the Entrusted (or Bailed) Property.

10 - PRICE – INVOICING – PAYMENT TERMS

10.1 Unless otherwise agreed by the Parties in a signed document, the prices stated in the Order are firm and non-revisable, and include all applicable taxes except VAT. These prices include all the costs and expenses incurred by the Supplier for the performance of the Supply, including the assignment of potential Results and related economic rights as well as shipping expenses to transmit the Supply to the Purchaser’s site(s).
10.2 The Supplier shall invoice the Supply in accordance with the Contractual Documents and, in any case, not before the delivery of the Products, and not before the performance of the Services. When an invoicing schedule is mentioned in an Order, the Supplier shall comply.

Invoices shall be drawn by the Supplier in accordance with applicable regulations and include, in addition to legal notices, the following:

- The Order number;
- The item number in the Order;
- The date and number of the delivery slip or the performance report;
- The Supplier's code, as provided by the Purchaser; and
- A detailed description of the Supply as described in the Order.

10.3 In the event that the Purchaser grants the Supplier advances or down payments on the amount of the Order, payment thereof shall be covered by a first demand guarantee drawn up in accordance with the model in Appendix 1 or by any other guarantee agreed between the Parties.

10.4 The deadline for payment of an invoice shall be stated in the Order, and shall not be more than sixty (60) days end of Month.

In the event of late payment, default interest shall be due starting from the day after the deadline for payment specified on the invoice, without any reminder being necessary. In this case, the default interest rate shall be the rate specified in the Late Payment of Commercial Debts (Interest) Act 1998.

11 - WARRANTY - MAINTENANCE

11.1 The Supplier warrants that the Supply, and any sub-parts thereto, shall be free from defects in design, in manufacturing, or in operation as well as against any defects in materials and component parts. The Supplier further warrants that the Supply, and any relating Services, shall be free from defects in workmanship in accordance with the contractual documents.

Unless otherwise specified in the Order, the duration of the warranty is five (5) years from the later of (a) the date of the delivery of the Supply, or (b) the date of the issuance of the final Acceptance Report. The warranty shall cover, at the Purchaser's option, (i) any refurbishment or replacement of the Product or Service correction, or (ii) reimbursement of the Product or Service. The warranty covers parts, labour, transport and travel. The warranty also includes the cost of disassembly (including the aircraft engine and/or the equipment subject of the Supply), handling, customs duties and reassembly of parts. **FOR THE AVOIDANCE OF DOUBT, NOTHING IN THIS WARRANTY CLAUSE SHALL PREJUDICE THE PURCHASER'S RIGHT TO COMPENSATION FOR ANY DAMAGES SUSTANIED BY THE PURCHASER AS A RESULT OF THE SUPPLY, THE RESULTS, OR THE WORKS.**

11.2 Unless otherwise specified in the Order, replacements or reimbursement of the Supply under the warranty provided in this article shall be performed within a maximum period of forty-five (45) days following the written notice of the defect sent by the Purchaser (or by the Final Client). If a Supply includes several subsets, then the Supplier shall, at its sole expense, correct any anomaly and damage to any and all subset that may be damaged by such defect(s) or malfunction(s).

11.3 Any product replaced or repaired or any service corrected shall be guaranteed, under the same conditions as above, until the end of the warranty period and in any case for a period of twelve (12) months from the time of the repair/correction. In the event the Supplier does not perform its warranty duties, the Purchaser reserves the right to perform or have a third party perform the necessary work at the Supplier's sole expense.
11.4 The Supplier shall, during the performance of the Order and until the expiry of the Supplier’s warranty obligations, maintain complete production of any components of the Supply or knowledge of any applicable service, so as to be able to provide such components or service (including but not limited to any spare parts) in accordance with the Purchaser’s needs and the warranty obligations set forth herein.

11.5 When the Supply is related to Specialized Equipment:

During the warranty period, the Supplier shall send a technician free of charge within two (2) days and ensure that the equipment is operational again within five (5) business days from notification of the Specialized Equipment’s failure. In the event of delays in implementing the warranty, the Purchaser may apply automatically and without prior notification, liquidated damages of 0.2% of the Supply’s price concerned by the failure per late business day. These liquidated damages shall be capped at 15% of the total amount, without VAT, of the applicable Supply.

The Supplier shall propose to the Purchaser, no later than upon delivery of the Specialized Equipment, a contract defining the maintenance conditions for the Specialized Equipment at the end of the warranty period. This maintenance contract shall provide, in particular: (i) the regularity and type of verifications carried out during preventive maintenance visits by the Supplier, (ii) the breakdown response times for which delays will be sanctioned by liquidated damages corresponding to 0.1% of the purchase’s price of the Supply with the breakdown per late business day, being specified that these liquidated damages shall be capped at 15% of the total amount, without VAT, of the maintenance contract, (iii) the price of the maintenance and the conditions for annual revision of this price, (iv) the prices and delivery times for spare parts, (v) the Supplier’s guarantee with respect to the maintenance services, (vi) the period of time during which the Supplier undertakes to provide the maintenance services and the supply of spare parts, this period shall not being less than five (5) years starting from the date on which the maintenance contract takes effect.

12 - MAINTENANCE

In the event the Purchaser decides that the Supplier will provide maintenance services, the Supplier agrees to:

- Obtain all relevant approval from the Official Authorities;
- Offer the maintenance services as long as the engine or equipment incorporating the Supply remains in operation, and (as set forth in article 11 herein) maintain the Supplier’s complete production of such Supply, so that the Supplier is able to provide any necessary products and spare parts. For the avoidance of doubt, the Supplier shall hold available to the Purchaser a complete price list of parts and different subsets of the products covered by the Order. Further, the Supplier shall ensure that the aggregate price of each spare part shall not exceed the aggregate price of a complete piece of the Supply (less the cost of assembly operations and partial and final tests);
- Provide any necessary technical assistance to the Purchaser or the Final Client during the general overhaul or repair of the Supply;
- Ensure a rotation of parts returned to it for overhaul or repair in the timeframes negotiated with the Purchaser.

13 - STOCK

13.1 The Supplier’s stock necessary for the performance of the Order shall come from sources certified by the Purchaser, or by the Supplier provided that the Purchaser has previously approved the Supplier’s certification procedure. The Supplier shall make available to the Purchaser all documents certifying the quantity, origin, quality, the controls and the backup
measures it has made or which it has certified organizations run in connection with such stock. Notwithstanding a third party providing stock or other parts necessary for an Order, the Supplier shall still be solely responsible to furnish Supply in accordance with the Contractual Documents.

13.2 In the event that the Purchaser supplies, for the provision of service, raw material or forgings to the Supplier of the Purchaser’s own property, the Supplier shall (upon the Purchaser’s request) immediately return all scraps, turnings, rejects, and excess of material derived from the Supplier production. Such returned items shall remain the Purchaser’s property.

14 - SPECIALIZED EQUIPMENT

When the Purchaser supplies the Specialized Equipment necessary for the performance of the Order, the Purchaser remains the owner.

When the Purchaser finances the Specialized Equipment, the Purchaser becomes the owner on acceptance of the Specialized Equipment. The acceptance of Specialized Equipment can only occur upon acceptance of the first batch of Supply manufactured with such Specialized Equipment. The associated plans and documents become the property of the Purchaser under the conditions of article 8 “Transfer of Ownership” for the Results.

15 - LONG-TERM OUTLOOK

The Supplier shall inform the Purchaser at least eighteen (18) months in advance of any production stoppage or withdrawal from its catalogue of the Supply.

For the Supply Order whose implementation spreads over time, the Supplier undertakes to implement a business continuity plan designed to identify measures to be taken to keep running the performance of the Order upon the occurrence of an event likely to prevent its performance.

16 - INDUSTRIAL AND INTELLECTUAL PROPERTY

16.1 The Purchaser may, in any place, and at any time, freely use, grant licenses, operate or transfer the Results that it has become the owner of in compliance with the provisions of article 8 “Transfer of Ownership”. If the Results could be subject to a copyright protection (in particular software), then the economic rights transferred to the Purchaser by the Supplier include the performance, reproduction, translation, adaptation, modification, marketing, use, retention, and duplication rights and more generally all operating rights for any purpose during the legal protection period of economic rights. The Purchaser may therefore make use of these Results, as owner, in the most extensive way using all supports and for all purposes.

The Supplier shall not use the Results for any purpose other than to perform under the Order. At the request of the Supplier, the Purchaser may, at its option and under conditions to be defined, grant to the Supplier a non-exclusive and non-transferable right to use the Results.

16.2 The Supplier grants the Purchaser, for the legal duration of the patent right and/or copyright a worldwide, non-exclusive, irrevocable and transferable right to use and/or operate, free of charge, with the right to sub-license, patent, engineer, processes or develop techniques independently of the Order and of which it is the holder, author or licensee and which are necessary for the use or operation of the Supply. If the Supplier transfers its right to said patents, software and processes or techniques developed independently of the Order to a third party, it must obtain an undertaking from this third that it will grant the Purchaser the same rights as those provided for in this Article.
16.3 The Supplier guarantees that it is the holder or has been granted the intellectual and/or industrial property rights to the Results transferred and, as such, shall hold harmless the Purchaser against any and all claims (including attorneys fees and all costs arising from or relating to an action defending the Purchaser) from third parties with respect to these rights.

In addition, the Supplier guarantees that it holds all the rights transferred to the Purchaser in application of article 16.2 of these General Purchasing Conditions with a view to enabling the Purchaser to use and operate the Supply.

The Supplier shall hold harmless the Purchaser against all the consequences of intellectual and/or industrial property claims from third parties which may be filed against the Purchaser in relation to the use or operation of the Supply and the Results. The Supplier shall take charge of the Purchaser’s defence and of all consequences, including costs, expenses and fines (including but not limited to settlements, and attorneys fees), which may result for the Purchaser. However, the guarantee will be excluded when the third party’s claim for infringement is based on the use of the Supply or of Results in combination with another product without the agreement of the Supplier or on any use thereof which does not comply with the Documentation and the contractual documents.

16.4 Furthermore, the Supplier shall, at its own cost, and without prejudice to the Purchaser’s right to seek reimbursement for any loss incurred, do one or more of the following (to be determined in the Purchaser’s sole and absolute discretion): (i) obtain the right to continue using the Supply, (ii) replace or modify the Supply in order to put an end to the infringement of the third party’s rights, while ensuring the requirements in the Contractual Documents are met, or (iii) reimburse the Purchaser for the Supply.

17 - LIABILITY – INSURANCE

17.1 The Supplier is liable for any damage or loss sustained by the Purchaser or any third party as a result of non-performance or improper performance of the Order. Consequently, the Supplier shall indemnify the Purchaser for any loss or damage sustained by the Purchaser, including the cost of repair and/or replacement that would result from any damage or loss to Entrusted (or Bailed) Property. Any assistance the Purchaser may give to the Supplier, for the performance of the Supply or the controls the Purchaser may organize, shall not in any way exempt the Supplier from its liability as regards to the Supply.

17.2 The Supplier shall maintain necessary insurance policies in an amount commensurate with the risks and liabilities incumbent upon the Supplier under ordinary law provisions and the Supplier’s contractual commitments. Upon Purchaser’s request, the Supplier shall provide proof of the validity of the insurance policies it has taken out by producing certificates issued by its insurers. Moreover, the Supplier shall produce proof that it has paid its premiums and shall provide certificates confirming (at regular intervals) the renewal of its policies for the following period, for as long as its contractual obligations remain in force. In the case of insufficient coverage, the Purchaser shall have the right to require that the Supplier take out additional coverage at the Supplier’s sole expense.

If Entrusted (or Bailed) Property is located at the Supplier’s premises, the Supplier shall maintain, on behalf of the Purchaser, a comprehensive risk insurance policy covering any damage to the Entrusted (or Bailed) Property, whatever the cause of damage. The Purchaser will be named as an additional insured party thereunder. Any Purchaser insurance shall only be a complement to the Supplier’s insurance policy.

Notwithstanding anything to the contrary herein, the amount of the Supplier’s insurance policies shall not limit the Supplier’s liability vis-à-vis the Purchaser.
18 - COMPLIANCE WITH LABOR REGULATIONS

The Supplier guarantees that it complies with all applicable employment and labour laws. The Supplier also guarantees that the Supply shall be performed in compliance with the employment and labour laws in force in the countries in which the Supply is manufactured or provided.

The Purchaser and the Supplier acknowledge and agreement that the Transfer of Undertakings (Protection of Employment) Regulations 2006 (“TUPE”) do not apply to any Supply, whether at its commencement or termination.

The Supplier warrants that it shall not operate its business in such a way as to render TUPE applicable to its fulfilment of the Supply.

19 - COMPLIANCE OF THE SUPPLY WITH REGULATIONS AND STANDARDS

Throughout the time that the Supplier is performing under the Order, the Supplier guarantees that the Supply will comply with any and all applicable the regulations and standards in force in the country where the product or service is delivered or rendered to the Purchaser, and in any other country where the Supplier has been informed that the Supply will be used.

Accordingly, the Supplier shall obtain and transfer to Purchaser, as soon as practicable, any and all certificates required by the applicable regulations and relating to the Supply.

In addition, the Supplier shall:

- implement all necessary measures for the establishment of its supply systems of the following minerals:
  - tantalum,
  - tin,
  - tungsten,
  - gold,
  so as to ensure that they originate from conflict free sources, and

- provide, when asked, information regarding said supply systems on a platform determined by the Final Customer.

Regardless of where the Supply is produced or rendered, the Supplier also guarantees to the Purchaser that the Supply will comply with applicable legal provisions and regulations to quality requirements and standards, including health, hygiene, safety, traceability of products and protection of the environment.

The Supplier shall provide the Purchaser, no later than the date on which the Supply is delivered, all information in the Supplier’s possession to enable the Purchaser’s or the Final Client’s safe use of the Supply.

The Supplier shall inform the Purchaser of any modification of applicable legal provisions and regulations and standards that affect the conditions in which the Supply is delivered or performed.

The Supplier represents that its fulfils all necessary requirements to participate in fulfilling the Order, and agrees to abide by any and all applicable laws and pay any and all applicable taxes.
20 - SUPPLY’S PERFORMANCE AT THE PURCHASER’S SITE

If the Supply is performed (either fully or partially) at the Purchaser’s sites, the Supplier shall respect and ensure the following provisions:

The Supplier will forward in advance a list with the names of the members of its personnel susceptible of accessing the Purchaser’s site, the Purchaser reserving the right to refuse any person access to its site for security reasons. The Supplier will take the necessary measures to ensure that if any persons have to be replaced. This will not have a negative impact on the performance and the quality of the Supplies.

The Supplier’s personnel and any subcontractor shall respect the rules of access to the site, security requirements, including in relation to information technology (IT), confidentiality rules, as well as the provisions of the Internal Rules of Conduct which apply to all persons within one of the Purchaser’s establishment as employees of an external company, including hygiene and safety rules and general working conditions.

When necessary, the Purchaser will make available to the Supplier premises that will be allocated to it to enable it to intervene without disrupting the organization of the Purchaser’s company. The Supplier will be able to place its equipment there, including in particular computer equipment (PCs, workstations, office furniture, etc,) necessary for the performance of the Supplies that are subject of the Order. The disposal of the premises will end once the Order has been performed, or if the Supplier’s presence in the Purchaser’s premises is no longer justified. The Supplier will retain full and entire ownership and custody of equipment, software and software programs belonging to it that it has occasion to use and/or store at the Purchaser’s site.

The Purchaser may also:
- provide the IT services strictly necessary for performance of the Order in accordance with procedures and modalities that it will define on a case by case basis in order to preserve the security of its IT systems;
- provide access to its internal messaging system and to a directory for the exchange of data with the Supplier, in accordance with the conditions defined in Appendix 2.

When the Supplier is authorized to access the Purchaser’s information system, this authorization is strictly limited only to performing the Order. The Supplier shall, in all events, respect the Safran Group’s Information System Utilization and Security Charter and all other instructions provided.

Should the Supplier’s personnel be present on the Purchaser’s site, the Supplier shall appoint a project manager having hierarchical and disciplinary authority over its personnel.

Each member of the Supplier’s personnel present at the Purchaser’s site must, on request, state their name, the manager of their mission, and the name and contact details of the Supplier’s project manager.

At the end of the completion of the Supply at the Purchaser’s site, the Supplier’s personnel must:
- return to the Purchaser’s security manager the badges and other means of access that had been given to them,
- where applicable, return to the department concerned the words, codes and keys used to access the hardware and software allocated to it,
and more generally, return all information, documents and other items which were supplied to it for the performance of the Order.

21 - SUPPLIER’S PERSONNEL

The Supplier is solely responsible for the administrative, accounting and labour management and supervision of its personnel assigned to the performance of Orders.

The Supplier will expressly retain hierarchical and disciplinary authority over its employees, including during the time when they are present at the Purchaser’s site.

The Supplier alone is responsible for the appointment of personnel that it assigns to the performance of the Order. The Supplier certifies that throughout the performance of the Order, the members of its personnel assigned to the task will be competent, qualified and sufficient in number to ensure that the Supply is in conformity with the Contractual Documents.

The Supplier will indemnify and hold harmless the Purchaser against any loss, damage, liability, claim, costs or expenses it incurs in connection with the Supplier’s personnel or the termination of engagement or employment of such personnel howsoever caused.

22 - CONFIDENTIALITY

22.1 Even without the Purchaser specifying or marking any information as confidential, the Supplier shall keep confidential all information received from the Purchaser in connection with any Order, as well as all information the Supplier might have access to as a result of its presence at the Purchaser’s premises or another Safran Group Company (collectively, the “Confidential Information”). Any Results shall be regarded and treated as Confidential Information belonging to the Purchaser.

22.2 Confidential Information shall remain the Purchaser’s property. The disclosure of Confidential Information by the Purchaser shall in no event be interpreted as granting to or conferring upon the Supplier, expressly or implicitly, any right whatsoever (under a licence or by any other means) with respect to the Confidential Information.

22.3 The Supplier shall:

- use Confidential Information only for the purposes contemplated in the Order;
- disclose Confidential Information only to those of its employees for whom it may be strictly necessary for the purposes contemplated in the Order and then only a “need to know” basis;
- not disclose Confidential Information or make it available, either in full or in part, to any third party without the prior written consent of the Purchaser; and
- ensure that the confidentiality obligations incumbent upon the Supplier under this article “Confidentiality” are complied with by its employees and other persons authorized by the Purchaser to access Confidential Information.

22.4 Notwithstanding the preceding, the confidentiality obligations shall not apply to any information which:

- is already in, or has already entered the public domain prior to its disclosure or after it, other than through the fault of the Supplier;
- is already known or available to the Supplier at the date of receipt of Confidential Information, as evidenced by written records of the Supplier; and/or
- is lawfully obtained by the Supplier from third parties, with full rights of disclosure, as evidenced by written records of the Supplier.
22.5 If the Supplier is required to disclose Confidential Information pursuant to a court order, the Supplier shall immediately inform the Purchaser of such disclosure. In addition, the Supplier shall cooperate with the Purchaser for the purposes of limiting the disclosure and use of Confidential Information as far as possible, which may include assisting the Purchaser to obtain a protective order (or similar judicial protection) relating to disclosure of the Confidential Information.

22.6 In the event of termination of the Order for whatever reason, the Supplier shall immediately return to the Purchaser any and all Confidential Information and/or to destroy any Confidential Information. The Supplier shall provide a statement certifying the aforementioned complete return or destruction. This return or destruction of Confidential Information shall not release the Supplier from its confidentiality obligations under this article.

22.7 Any and all classified Confidential Information disclosed by the Purchaser shall be identified as such at the time of its disclosure. The disclosure, protection and use of classified Confidential Information shall be in accordance with the security procedures issued by the authorities concerned.

22.8 The Supplier shall not use the Order, the Supply, the Confidential Information, and/or any other information for the purpose of direct or indirect advertising without the prior written agreement of the Purchaser.

22.9 Unless otherwise provided for in the order, the confidentiality obligations provided in this article shall remain in full force and effect throughout the Order performance and for a period of thirty (30) years from the end of the warranty period of the Supply, it being specified, however, that with regards to results that are the subject of intellectual and/or industrial property rights, the obligations to maintain confidentiality will remain in force throughout the entire duration of performance of the Order and throughout the entire legal duration of protection relating to intellectual and/or industrial property right.

22.10 If Confidential Information that is the property of a third party is to be communicated to the Supplier, any more restrictive confidentiality requirements that may be imposed by this third party will be passed on to the Supplier.

22.11 In order to ensure the security of the Purchaser's Confidential Information and the media containing it, the Supplier will take all necessary precautions to ensure its protection, in particular by using computer access controls and encryption of the Confidential Information.

22.12 Should the Supplier disclose information that it owns to the Purchaser, which would be marked or identified as being confidential, the Purchaser undertakes to comply with the same obligations.

23 - OFFSET

If, throughout the performance of the Order, the Supplier uses products or services from countries with which the Purchaser has, directly or indirectly, contracted offset obligations, the Supplier shall, at the Purchaser request, use its best efforts to ensure that the value of its Orders can be taken into account by the competent offset authorities within the framework of the Purchaser’s obligations mentioned above.

24 - FORCE MAJEURE
Each Party shall inform the other Party immediately, with confirmation by written notice, no later than five (5) calendar days after the occurrence of force majeure preventing it from performing its obligations under the Contractual Documents.

The obligations whose performance is rendered impossible by the occurrence of an event of force majeure shall be suspended for the duration of this event.

The Party invoking force majeure undertakes to take every measure possible to limit the prejudicial consequences of this event for the other Party.

For the application of this clause, only an event meeting simultaneously all the conditions described hereinafter shall be considered an event of force majeure:

a) This event must be unavoidable, unforeseeable and totally independent of the will of the Parties.
b) Subsequent to this event, the Party invoking the event of force majeure was unable to perform its obligations in accordance with the Contractual Documents.

The Supplier shall not be able to invoke delays on the part of its own suppliers or subcontractors unless the cause for these delays may be considered an event of force majeure under this clause.

25 - TRANSFER – ASSIGNMENT – SUBCONTRACTING

25.1 The Supplier shall not transfer or assign all or part of the Order or the related rights and obligations to any third party without the prior written consent of the Purchaser, including in the event of merger or split-up. However, the Supplier may assign to third party debt held by the Purchaser.

The Purchaser, in its sole and absolute discretion, reserves the right to transfer or assign to any Safran Group Company, all or part of the Order or the related rights and obligations, provided that the Purchaser shall provide prior written notice thereof to the Supplier.

25.2 Unless the Parties expressly agree otherwise, the Supplier shall not subcontract any of the Order. If the Supplier is authorized to subcontract, the Supplier shall pass on the obligations contained in the Contractual Documents to its subcontractors. The Purchaser may, if necessary, approve in writing the subcontractor’s payment terms at the request of the Supplier. Notwithstanding the approval of the Purchaser to the Supplier’s subcontracting of the performance of the Order, or the choice of the subcontractor and its payment terms, the Supplier shall remain solely liable to the Purchaser for the performance of the Supply subcontracted. No default of its subcontractors shall exclude or limit the Supplier’s liability.

26 - EXPORT CONTROL

26.1 The Parties agree to comply with export control laws and regulations that are applicable to the Supply (including its components), as well as to the software, information and products that the Parties may exchange within the framework of the performance of an Order.

26.2 Each Party undertakes to inform the other Party of the export control classification concerning the elements hereinabove, and undertakes to notify it of any changes to – or any plans to change – this classification no later than fifteen (15) days after receiving notice of said change.

26.3 In the event that the export or re-export of all or part of the Supply is subject to obtaining an export license, the Supplier shall apply, at no cost to the Purchaser, for any license or
governmental authorization necessary to enable the Purchaser to use the Supply and to deliver such licenses or governmental authorizations to the Final Client or to any other end user specified by the Purchaser to the Supplier. The Supplier undertakes to immediately notify the Purchaser of the issuance of the export license by the competent government authorities or of the existence of a dispensation, and to provide it with a copy of said license or a certificate describing in particular any restrictions applicable to the re-export or re-transfer by the Purchaser of all or part of the Supply to a third party. An Acceptance Report may not be issued, and may subsequently be deemed invalid, if the Supplier does not properly issue the export licenses described herein.

26.4 The Supplier shall implement all necessary security measures to prevent the transfer, by any means whatsoever, of information provided by the Purchaser and identified as being subject to applicable laws and regulations on export control to any person that is not authorized to access such information.

26.5 Should any applicable export licence be withdrawn, not renewed or invalidated for any reason whatsoever, the Purchaser reserves the right to automatically terminate the Order, without prejudice to its right to claim compensation for the damage sustained by this breach.

26.6 Should the Supplier fail to meet its export control obligations, the Supplier will be bound to compensate the Purchaser for any damage caused to the Purchaser and its customers (including the Final Client) in connection with the performance of the Order or the use or operation of all or part of the Supply. Furthermore, the Supplier shall pay for the cost of defending the Purchaser (including any and all attorneys fees and related costs) and/or the Purchaser’s customers in the event of any action or legal proceedings taken by competent authorities relating to export control as well as all consequences, including fees, expenses and damages that may be incurred.

27 - TERMINATION

27.1 Either Party shall be entitled to terminate the Order by sending notice via certified mail return receipt requested in the following cases:

- When the other Party fails to perform any of its contractual obligations and does not cure such breach within thirty (30) days from receipt of formal notice thereof;
- When the other Party becomes the subject of judicial protection, receivership or liquidation;
- When there is a force majeure event the duration of which exceeds one month from the date on which one of the Parties informs the other Party thereof.

27.2 In addition, the Purchaser may, in its sole and absolute discretion, terminate the Order by sending notice via certified mail return receipt requested in the following cases:

1. With immediate effect when the Supplier fails to comply with any of its obligations set forth in articles 18 (“Compliance with Labour Regulations”), 26 (“Export control”) and/or 28 (“Ethics”) of these General Purchasing Conditions and more generally in case of any breach by the Supplier of any of its contractual obligations which cannot be remedied;
2. Subject to a thirty (30) days’ written notice when one of the Purchaser’s competitors or a competitor of any other Safran Group Company acquires a stake in the Supplier’s capital; and
3. Subject to a thirty (30) days’ written notice, in the event of a major change in the industrial organization of the Supplier that could jeopardize (in the Purchaser’s sole and absolute discretion) the proper performance of the Order such as transfer of production.
27.3 In the event of the Purchaser terminates the Order, the Purchaser reserves the right to perform or have a third party perform all or part of the Order at the expense of the Supplier. In this respect, the Supplier undertakes, at the request of the Purchaser, to provide to the Purchaser or to any third party designated by the Purchaser all the elements necessary to perform the Supply.

27.4 Upon the expiration of the Order, or following its termination for any reason whatsoever, the Supplier shall return, within eight days and at its cost, to the Purchaser the Entrusted (or Bailled) Property and any Documentation which has not yet been provided.

27.5 In any event of termination, each Party shall still be required to comply with all its contractual obligations until the effective date of termination, without prejudice to any damage that the non-defaulting Party may be able to claim as compensation for the damage incurred as a result of the non-performance by the defaulting Party of the obligations set forth in the contractual documents. Besides, in the event the Supplier is the sole source for the Purchaser, the latter may postpone the effective date of termination until the implementation of another source. In that case, the Supplier undertakes to ensure the performance of the Order under the contractual terms and conditions.

28 - ETHICS

The Supplier solemnly declares that:

- It has not infringed any anti-corruption laws or regulations,
- It has not been subject to any civil or criminal sanctions for infringement of anti-corruption laws or regulations and that no investigation or proceedings which could lead to such sanctions have been brought against it,
- To the best of its knowledge, no executive or manager of the Supplier has been subject to any civil or criminal sanctions for infringement of anti-corruption laws or regulations and that no investigation or proceedings which could lead to such sanctions have been brought against such persons.

The Supplier warrants that:

- It complies and shall comply with the legal provisions against corruption in accordance with the OECD Convention of 1997 and the United Nations Convention Against Corruption of 2003 (UNCAC),
- It complies and shall continue to comply with the Bribery Act 2010, it shall not engage in any activity, practice or conduct which would constitute an offence under sections 1, 2 or 6 of the Bribery Act 2010 if such activity, practice or conduct had been carried out in the UK and it has and shall maintain its own policies and procedures, including but not limited to adequate procedures under the Bribery Act 2010 and will enforce them where appropriate,
- It has not granted and shall not grant, directly or indirectly, any gift, present, payment, remuneration or benefit whatsoever (trip, etc.) to anyone with a view to or in exchange for the conclusion of an Order.

The Supplier shall notify the Purchaser’s Purchasing Department of any gift, present, payment, remuneration or benefit whatsoever that it might grant either directly or indirectly to any employee, officer or representative of the Purchaser or of any Safran Group Company or to anyone that might influence their decision within the framework of the performance of an Order.

In the event of failure to comply with this clause, the Purchaser shall automatically have the right to terminate the Orders in progress with immediate effect and without compensation, and without prejudice to any remedies the Purchaser may take against the Supplier.
29 - MISCELLANEOUS

(i) The particularly sensitive nature of the Purchaser's business activities may result in specific requirements regarding security. As a result, the Supplier may be required to sign, before the start of the performance of the Order, either a confidentiality agreement, or agreements relating to the custody of classified and secret information.

(ii) Neither Party’s failure to exercise or delay in exercising any of its rights with respect to the Contractual Documents shall be construed or be deemed a waiver of any such rights.

(iii) Should any provision of the Contractual Documents be held to be invalid, the remainder shall continue to be valid and enforceable. The Parties shall then seek to replace this provision with a valid provision in order to maintain the contractual balance.

(iv) The Supplier acts in its own name and on its own behalf as an independent contractor. The Supplier has neither the power nor the authorization to enter into any commitment whatsoever in the name and for the account of the Purchaser. No provision of the Contractual Documents may be construed as creating an agent/principal, parent/subsidiary or employer/employee relationship between the Supplier and the Purchaser.

30 - APPLICABLE LAW – JURISDICTION

By express agreement between the Parties, the Contractual Documents, and all claims or causes of action (whether at law, in contract or in tort) that may be based upon, arise out of, or relate to the Contractual Documents or the negotiation, execution or performance thereof, shall be governed by and construed in accordance with the laws of the State of England & Wales excluding that body of law known as conflicts of laws. The parties specifically disclaim the Vienna Convention on the International Sale of Goods.

EACH OF THE PARTIES HERETO IRREVOCABLY SUBMITS TO THE EXCLUSIVE JURISDICTION OF ENGLISH COURTS WITH REGARD TO ANY MATTER, CONTROVERSY, OR DISPUTE BETWEEN THEM WHICH ARISES OUT OF OR RELATES TO THIS AGREEMENT, AND EACH PARTY CONSENTS TO THE EXCLUSIVE JURISDICTION OF THOSE COURTS FOR ANY ACTION INVOLVING SUCH A MATTER.

In no circumstances, shall this prevent a Party from obtaining injunctive relief before a competent jurisdiction.

However, the Parties may by mutual agreement decide to have recourse to mediation, before going to court.

This Appendix establishes the conditions under which the Purchaser and the Supplier will carry out an electronic data interchange (EDI) via networks, and within the framework of those certain Safran Group General Purchasing Conditions (capitalized terms used but not defined herein shall have the meanings ascribed to them in the Safran Group General Purchasing Conditions).

A) Definitions

Electronic data interchange (EDI): electronic transfer via a network, from one computer to another, of data in the form of an EDI message.

EDI Message: series of structured segments presented in a form that can be unequivocally read by a computer.

Acknowledgement of Receipt: message issued by the recipient of an EDI message acknowledging receipt of the message and its legibility.

B) Nature of the information exchanged

The information which may be exchanged by EDI is defined in the Orders.

Any other information must be exchanged via paper unless there is a specific, written, agreement between the Parties to include such an exchange (independent from this Appendix).

C) Validity and taking into account the EDI content

The exchange of information via EDI is carried out at the time and place that the EDI message is placed at the disposal of the recipient’s information system.

On receipt of information transmitted by EDI by the recipient’s computer, the recipient issues an Acknowledgement of Receipt to the issuer. The recipient is then reputed to have correctly received the information given unless the recipient informs the other Party of a problem in reading or interpreting the data transmitted. Notification of such a problem may be sent by any means.

Under no circumstances is the recipient authorized to modify the message received. Any modification must be made by the issuing Party with specific reference to the modification made. In order for an Acknowledgment of Receipt to be properly issued, the underlying EDI Message must be issued by an authorized issuer with an agreed upon electronic signature.

D) Registration and conservation of EDI Messages

The Parties must keep all the EDI messages exchanged, taking all the necessary security measures at their disposal to guarantee their inalterability. In this respect, the Parties undertake to respect a certain number of control procedures such as the conservation of the information sent by EDI in its original form and in chronological order of sending.

The Parties must ensure that the information exchanged by EDI is kept by electronic or computer journals listing all exchanges sent and received and that it is easily accessible. In addition, the Parties must ensure that this information can be reproduced in legible form and can be printed.
E) Admissibility and probative value of the EDI Messages

Each Party agrees that the EDI messages exchanged on the basis of this Appendix and in conformity with the provisions hereunder have a probative value equivalent to that of a document in paper format.

As such, the Parties waive the right to contest the authenticity of the information exchanged or oppose the information on the sole basis that the information was exchanged by EDI.

The Parties agree that, in the event of a dispute, information exchanged by EDI may be produced before the courts or arbitration panels as proof of the facts that they contain; provided that either Party may contest the validity of the underlying facts with other proof or evidence.

F) Security of EDI Messages

The Parties shall set up and maintain security measures and procedures to ensure the protection of the EDI messages against risks of unauthorized access, modification, lateness, destruction or loss.

The security procedures and measures include verification of the origin and integrity of the EDI Messages. All information exchanged by EDI must identify the sender and the recipient. As such, each of the Parties shall submit to the other party a list of the persons authorized to send information by EDI (including providing corresponding electronic signatures), and update this list as necessary.

If any security procedures and measures lead to the rejection of an EDI message or the detection of an error in the message, the recipient must inform the sender of this as soon as possible.

The recipient of an EDI message which has been refused or which contains an error cannot act on the message without authorization from the sender. When a refused or erroneous message is retransmitted by the sender, the message must clearly indicate that it is a corrected message.

In addition, the Parties shall set up and maintain the operational environment necessary for EDI operations. As such, the Parties must supply and ensure maintenance for the hardware, software and the services necessary to transmit, receive, translate and conserve EDI messages.

G) Confidentiality

The Parties must ensure that the information contained in the EDI messages remains confidential and is not disclosed or retransmitted to any other parties who are not authorized to receive it. They must also ensure that it is not used for any purpose other than the execution of the Orders.
