Home Page

You reach the base of approvals Suppliers and the contractual requirements. These documents are applicable to the orders MESSIER-BUGATTI-DOWTY of which you are holder. These contractual requirements are opposable to the titular supplier of orders MESSIER-BUGATTI-DOWTY.

The supplier accepts and states to apply this requirements thus transmitted by MESSIER-BUGATTI-DOWTY.

The level of confidentiality can restrict your access to the remote loading in electronic form. In this case, the document will be transmitted to you using physical methods in the form of a postal mail.

WHAT ARE “C-” OR “Q-”

→ “C-” : Certification:

- This stage is granted to the supplier’s site who successfully implemented a system or a capability (**Non-Special Processes**) and proves its compliance to certain set of MBD and/or SAFRAN requirements (generally by an audit performed by MBD/SAFRAN). As an example is the Model Based Definition certificate, Delegations certificate or Certificate for Machining of Aluminum.
- Certification is not necessarily linked to a “re-certification period”

→ “Q-” Qualification:

- This is the recognition of the supplier’s site capability to perform a **Special Process**” on products, meeting the MBD requirements as defined in technical specification.
- Qualification is linked to a “re-qualification period” of 3 years.

WHAT ARE

OR

Means that Approval, Qualification or Certification Has
An “Expiry Date”

Means that Approval or Certification Does Not Have
An “Expiry Date”
